

Full Spectrum Cyber: for sub US \$100M clients

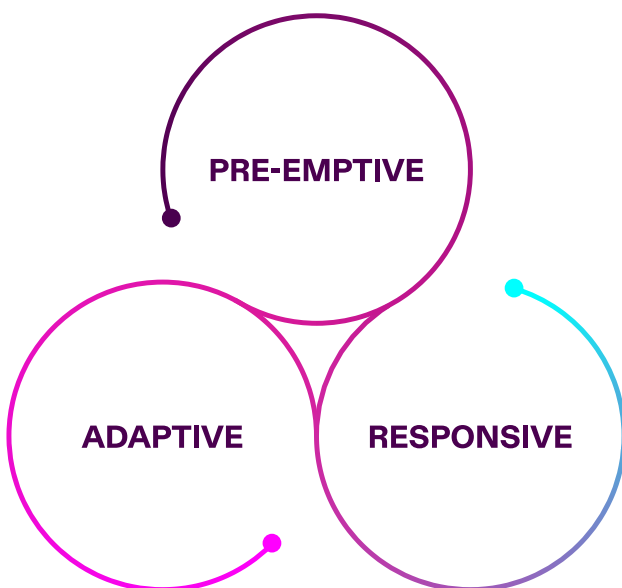

In the world of cyber threats, rules don't apply.
You need a skilled, fearless, ready-for-anything team at
your side.

Businesses, whether large or small, that implement robust cyber security strategies and risk management services develop stronger cyber resilience and are better equipped to manage and respond to cyber threats. We know, because we've managed thousands of cyber incidents.

Our **Full Spectrum Cyber*** solution keeps you ahead in the battle against cyber risks with a unique 'always on' cyber ecosystem that integrates insurance, incident response and cyber security to maximize your cyber resilience.

Together with **Beazley Security**, our cyber security company, we help you pre-empt cyber risks, respond to attacks, and adapt as new threats emerge.

It's this constantly evolving approach that makes **Full Spectrum Cyber** so different from other static cyber insurance offerings.

Benefits of Full Spectrum Cyber

Full Spectrum Cyber and Beazley Security are designed to actively help clients deal with the complexity and uncertainty of cyber risks with a complete in-house, end-to-end solution, from the initial quote through to resolving an incident, and back again.

Pre-emptive Cyber

When it comes to managing cyber risks, preparation is fundamental. Full Spectrum Cyber keeps you one step ahead of cybercriminals with pre-emptive services.

Our range of [risk management offerings](#), guidance and technology are designed to minimize risks and boost resilience, including:

- An instant cyber risk assessment that pinpoints any vulnerabilities to help to improve defenses.
- Exclusive [discounts on services](#) and products that build cyber resilience from carefully selected expert vendors, including phishing assessments, multi-factor authentication tools, ransomware detection and cyber security analysis.
- A [cyber customer center](#) for best-practice tips on preparing for and responding to an incident.
- Interactive online training for employees, live webinars, regular newsletters, and [security alerts](#).
- Access to [threat intelligence reports](#) that explain the cyber threat landscape and provide actionable insights.

Responsive

Managing a cyber incident is complicated, expensive and time-consuming. With Full Spectrum Cyber you multiply your cyber defenses enlisting an army of experts to have your back, ready in an instant.

- Beazley Security and our [panel of expert vendors](#) mobilize in an instant to respond to an incident: IT forensics, ransom negotiators, crypto-currency facilitators, data recovery specialists, legal counsel, PR & crisis management, amongst others.
- Coverages help clients recover from financial losses including data breaches, cyber extortion, business interruption, e-crime and much more.
- More financial protection than a standard cyber policy thanks to additional dedicated limits for Breach Response and Notified Individuals.

Award winning claims expertise when an incident strikes.

- Defense for privacy class actions and regulatory investigations.
- Interim claims payments to help get you back to business quickly.
- A streamlined process for difficult [data recovery](#) and [business interruption](#) claims to speed up repayments.

Adaptive

Cyber threats don't stand still, and neither do we. Full Spectrum Cyber continuously adapts to improve defenses, which is why our clients stay with us for the long term.

- Protect against emerging risks like AI deep fakes, social engineering and regulatory changes with continuously evolving coverages.
- Receive Beazley Security's [real time alerts](#) on the latest threats and vulnerabilities with instructions and solutions on fixing them.
- Prevent follow-up attacks after an incident and improve cyber defenses with up to 100 hours of consultation and remediation of your network, systems and vulnerabilities with Beazley Security.
- Secure negotiated rates with Beazley Security to help implement improvements and adaptive cyber security services to pre-empt new and evolving cyber threats.
- Gain access to an [Incident Preparation Room](#), a secure platform that enables different teams to collaborate and communicate during an incident in confidence.

Cyber risks don't have to be feared. But you do have to be prepared. Full Spectrum Cyber covers everything from the latest intelligence to prevention and protection tactics, and we'll manage it when something goes wrong.
